Canada during COVID-19: A Living Archive - Junior and Senior Learning Tools

This resource provides guidance for educators and students interested in participating in the *Canada during COVID-19* project. A project of Historica Canada, the *Canada during COVID-19 Learning Tool* encourages students to think more deeply about primary sources and the ways historians use them to uncover the past. Students will have the chance to develop a primary source of their own, based on their unique experiences and perspectives during the COVID-19 pandemic. *Canada during COVID-19* offers you and your students the opportunity to contribute to our archive and to participate in creating a living history.

The learning tool is available for junior-level students (grades 4-6) and for senior-level students (grades 7-12).
